Career Objective

Currently employed at Woolworths, I am a retail manager with 7+ years of management experience, looking for a major career change to a Front-end web developer.

Personal Summary

As a manager I have gained many valuable skills such as: Team leadership, setting and maintaining team member performance, time management, strict budget management, rostering, inventory management, customer service and more.
Constantly learning and improving my software development skills. Keen eye for design and detail, with exceptional HTML & CSS knowledge. Strong javascript knowledge with clean, readable and functional code. Extensive experience with API's such as Spotify and OpenAI. You can view my work [here on github](#).

Project Experience

Spotify App:

User authentication
Create, Remove, Update & Delete data using API endpoints
Dynamic routing based on unique ID
Custom drag & drop playlist with autoscroll
Global state management
Responsive design for all devices

Calendar:

Javascript Date & time formatting / calculations
Rendering dynamic html on user input

Picture puzzle:

Array manipulation, shuffling & swapping values
HTML canvas for image creation, resizing and cropping
Local storage for highscores

Holographic card:

Complex css animations and transforms
Complex background image effects based on mouse position

Socket-io App:

Websockets communicating data between connected users
Joining/creating rooms
